

Emirates Gateway Sync

Introduction

The **Emirates Gateway** platform consists of three channels. Alongside Emirates Gateway Direct and Emirates Booking Portal, our platform also offers you **Emirates Gateway Sync**. In this channel, a number of approved technology partners have already connected to our **Emirates Gateway Direct** channel. Rather than building your own interface to us using **Emirates Gateway Direct**, you may decide that connecting via an **Emirates Gateway Sync** Technology Partner is a better solution for you.

In this document, you will find the following information:

- Information on IATA New Distribution Capability (NDC) standards
- Compliance of our **Emirates Gateway** platform regarding the IATA NDC Standards
- An introduction of all our **Emirates Gateway Sync** Technology Partner including an overview of the interfaces they have connected on our Emirates Gateway platform

IATA NDC

IATA New Distribution Capability (NDC) is a set of technical interface standards that can be adopted by airlines and distribution partners to establish a direct booking channel without the need of any intermediary. IATA has introduced these standards for the below mentioned interfaces and is providing airlines with compliance certificates. If you wish to read more about IATA and NDC, please refer to the following [link](#)

Currently, Our **Emirates Gateway** platform is IATA NDC Level-3 certified and we are planning for Level-4 certification in the autumn of 2020. Our platform is stable, scalable and has been delivering Emirates NDC content to travel sellers for over 2 years. We continually focus on delivering new features aligned to the needs of our travel partners and the ever-growing product offering that Emirates provides through this channel.

Emirates Gateway compliance to IATA standards

Below you can see a summary of all the Interfaces for which IATA have set out technical standards. Alongside, you will see the interfaces that are available via our Emirates Gateway with an indication on our IATA certification. More information on each of these interfaces is provided from page 3 onwards.

Shopping, Pricing and Booking Interfaces; IATA outlines a three-step process to make a booking which is enabled via below interfaces			
Technical Name		Emirates Gateway	IATA Certified
	AirShopping	✓	
	OfferPrice	✓	
	OrderCreate	✓	

Post-Booking Servicing Interfaces; Connect your systems to these interfaces for a seamless experience for your agents (*)			
Technical Name		Emirates Gateway	IATA Certified
	OrderCancel	✓	
	OrderReshop	✓	Coming soon
	OrderChange	✓	
	OrderChangeNotification	✓	Coming soon

(*) Emirates Gateway can also offer Emirates Booking Portal for Post-Booking Servicing, however we strongly recommend you use above interfaces for a seamless experience within your own systems.

Ancillary Product Interfaces enable you to add ancillary products to your flight booking			
Technical Name		Emirates Gateway	IATA Certified
	SeatAvailability	✓	
	ServiceList	Not yet available	N/A

Supporting Interfaces available alongside other Interfaces and can be invoked when required			
Technical Name		Emirates Gateway	IATA Certified
	OrderRetrieve	✓	
	OrderList	✓	
	FareRules	✓	

Emirates Gateway Sync Technology Partners

On the next pages you will find an ever-growing list of Emirates Gateway Sync Technology Partners with an introduction and overview provided by our partners. We encourage you to reach out to them to find out how they can help you to obtain access to our products and services.

Verteil Technologies

Verteil Technologies is an IATA NDC Level 4 certified IT provider focused on building advanced direct connect technologies for airlines and travel agencies. Our flagship direct-connect aggregator product, Verteil Direct Connect (VDC), provides a direct connect selling platform for offline and online travel agencies supporting both

Proprietary and IATA's NDC XML standard to connect directly with airlines around the world. Travel agencies can consume Verteil's NDC via either APIs or fully functional web application which is also 100% NDC aligned. Apart from support of regular shopping, booking, ticketing and servicing workflows, Verteil solution is capable of delivering rich content and delivering additional ancillary revenue opportunities apart from the ability to deliver personalized offers.

Major Markets and Active Markets

Our primary markets now are India, Asia Pacific (including Japan, China, and South Korea), Middle East, Europe, and UK. We are actively growing in the regions of Africa and Americas (including USA, Canada).

PKFARE

At PKFARE, we create NDC products to help agencies to enter the NDC world in a simple and smart way. PKFARE is a global sales & distribution partner for airlines and a hub of global travel contents. Our solutions for NDC (ndchub.com) and GDS (PKFARE.com) help airlines and agencies to distribute and access air and non-air content.

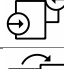

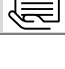

Founded in 2014, we now have a presence in more than 100 countries across the Americas, Asia-Pacific and Europe. We provide services to more than 10,000 agencies and handle 12,000 transactions in 30 currencies on a daily basis. Our headquarter is located in Shenzhen, China and we have offices in Beijing, Shanghai, Hong Kong, Singapore, Dubai and Seattle

Our Products

- **PKFARE.com** is an innovative B2B marketplace for air and non-air travel products, supporting both NDC and GDS content, for agencies of every size in any geographical region
- **NDCHUB** helps agencies to get NDC content and provide best solution for agencies during transmission from GDS to NDC
